

Cosette Perdue L.M.T., C.T.

I started my journey, 25+ yrs ago, with a sincere intent of helping others with their internal and external well being.

I went to Indian River Community College to complete my Anatomy and Physiology courses, in addition to Space Coast Massage School. My education in Colon Hydro-Therapy was completed in 1997 at Wood Hygienic Institute, Inc., 2220 E. Irlo Bronson Memorial Hwy, Ft. Pierce, Florida.

My interest in this modality came by from my own personal issue with constipation. It has been so rewarding helping countless people with countless gut issues and autoimmune diseases. I am appreciative and grateful for the opportunity to help you, please feel free to call for an appointment.
